Do you need hope and a fresh start?

If you are ready to change your life, Adams Recovery Center can help.

With decades of combined experience in the treatment of addiction and co-occurring disorders, our highly trained team of professionals is dedicated to excellence.

Our team consists of licensed professional staff who utilize the latest evidence-based practices in chemical dependency.

Our separate-gender residential facilities safely remove each client from his or her environment in order to assist in breaking free from the lifestyle of addiction. Clients participate in a Therapeutic Community, which includes group, family, and individual therapy.

Transportation to and from the facility can be arranged.

Addiction destroys families generation after generation.

Adams Recovery Center provides a supportive beginning for anyone making lifestyle changes.

This is your opportunity to reclaim your life and your family.
