

Women's Facility What to Bring to Treatment

The following is a list of suggestions, not requirements. Clients who bring only some clothes and toiletries will still have all of their needs met while at Adams Recovery Center. We also have assistance available for clients who do not have access to any possessions.

Please bring all of your items in trash bags. We do not allow suitcases or bags in our facility. All your belongings will be searched, and clothes will be run through the washer and dryer. To expedite the process, please label your belongings ahead of time. Also, please note that your belongings will have to fit into the storage area by your bed, so please be mindful of the number of items you bring.

If anything is brought to our facility that is not allowed, we will ask that a family member take it back home. If you have any questions about the list, please call us at **513-575-0968**.

Necessities
